The 2018 TCPA Annual Conference Planning Committee has put together an exciting two-day conference to bring the Annual 2018 Conference to you. They have put together two days of training and partnering.

**Conference Schedule at Glance**

**Thursday - November 29th**
- Golf Tournament (Lions Golf Course)
- Meet & Greet (Culinary Dropout)

**Friday - November 30th**
- Full Training Day (JJ Pickle Center)

**Golf Tournament**: The golf tournament starts at 1 pm on Thursday, 29 November at Lions Golf Course. See attached flyer.

**Meet and Greet Social**: The Meet and Greet Social will take place at Culinary Dropout at the Domain in Austin. Come early and plan on staying late. We will begin at 6:30 p.m. on Thursday and stay until you are ready to go home. The restaurant has a wonderful street side atmosphere. Please come and join the fun.

**Hotel Accommodations**, The Domain at Austin has several hotel options co-located and next door. The Archer, The Westin, A Loft, La Quinta, Marriott. Visit the Domain website for additional nearby lodging options.

**JJ Pickle Training Center**: The training portion of the conference takes place on 30 November and runs from 8 AM to 4 PM at the JJ Pickle Research Center which is located at 10100 Burnet Road, Austin. See attached agenda.
The 2018 TCPA Training Day will provide an opportunity to hear subject matter experts discuss proper installation practices as well as a chance to hear TxDOT and FHWA professionals discuss current affairs. It also provides an excellent networking opportunity.

Friday, November 30th, 2018

JJ Pickle Center
10100 Burnet Road, Austin
The Big Tex Room

8:30 - 9:00  Registration and Welcome

Completing the full day training agenda qualifies attendees for 7.0 PDHs.

9:00 - 9:50  Proper Pipe Installation
Walt Catlett, P.E. (ACPA)

A properly installed pipe should remain in service for 50 to 100 years with little or no repair. This class promotes a solid understanding of installation, specifications, design requirements and material differences for pipe systems. Empower your staff with this knowledge.

10:00 - 10:50  Maintenance Condition Assessment
Alena Mikhaylova, Ph. D. (Rinker Materials)

A maintenance condition assessment allows public agencies to identify required funding levels, a strategy for prioritizing maintenance conditions and areas of excessively high or low maintenance. Developing a method for collecting roadway maintenance information in order to assess the overall condition of roadway assets provides the data to create a maintenance condition assessment.

11:00 - 11:50  City of Austin Stormwater Infrastructure Asset Management
Morgan Byers, P.E. (City of Austin)

Asset management helps to identify a structured sequence of maintenance, preservation, repair, rehabilitation, and replacement actions that will achieve and sustain a desired state of good repair over the lifecycle of the assets at minimum practical cost.

12:00 - 12:30  Lunch/Speaker
Bill Hale, P.E. (TxDOT-Chief Engineer)

TxDOT’s Chief will discuss the newly approved FY 2019 Unified Transportation Plan and highlight key design and construction projects scheduled for 2019.

12:30 - 1:20  Jacking Pipe-Trenchless Installation
Derek Light, P. Eng. (Rinker)

Trenchless installation saves time, saves money and improves roadway safety. As our nation’s infrastructure approaches its service life, the jacking pipe procedure is a beneficial option worth researching.

1:30 - 2:20  Evaluation/Selection of Consultants
Liza Kirk, P.E. (Forterra)

Students will receive guidance on the basic process of selecting a consultant. Evaluation and Selection of Consultants is the process by which an agency must decide on the service needed; how broad a list of consultants to have for consideration; how to develop the proposal; which selection process to use; what criteria to use; and who will be involved in the selection.

2:30 - 3:20  TxDOT - Bridge Inspection
Bernie Carrasco, P.E. (TxDOT - Bridge Division)

Mr. Carrasco, who is the head of TxDOT’s State Bridge Inspection Program will discuss TxDOT’s strategy to manage their bridge assets, making sure they provide the longevity and resiliency needed by the citizens of Texas.

3:20 - 4:00  Precast Box Culvert Installation
David Matocha (Forterra)

Precast Reinforced Concrete Box Culverts (RCB) empower owners with a time saving, extremely durable bridge-replacement option. Replacing an aging bridge in a few days versus several weeks reduces road user impacts, improves work zone safety and saves money.

4:00 - 4:10  Closing Comments

SEND REGISTRATION TO: wcatlett@concretepipe.org

For more info, contact: Derek Light at 469.771.9379 or dereks.light@rinkerpipe.com
The TCPA Annual “Research & Education Foundation” Tournament is Thursday, November 29, 2018, at Lions Municipal Golf Course at 29 Enfield Road, Austin, Texas. The fundraiser supports ACPA’s Research and Education Foundation, whose mission is to support the long-term competitiveness of the precast concrete pipe and box culvert industry in the United States. **We will shotgun start the tournament at 1:00 PM.** The cost to play is $75.00 per person for 18 holes of golf, food, drinks, and prizes. Lunch is provided. Come out for lunch even if you aren’t playing in the tournament to support the Association. Lunch will start being served at noon.

Sponsorships are available for a Beverage Cart Sponsor ($1000), Eagle Sponsor ($1000), Birdie Sponsor ($600), and Hole Sponsor ($250). Donations are greatly appreciated. Review the attached “Save the Date” flyer for more information regarding sponsorships. If your company has a creative way to sponsor a hole let me know and we will work with you.

We will award prizes for longest drive, closest to the pin, and team scores.

Complete the information below to reserve a spot. E-mail to Derek Light at dereks.light@rinkerpipe.com
